About SBAC-PAD

SBAC-PAD is an international annual symposium, started in 1987, which has continuously presented an overview of new developments, applications, and trends in parallel and distributed computing technologies. SBAC-PAD is open for faculty members, researchers, specialists and graduate students around the world.

In this edition, the symposium will be held at the Majestic Palace Hotel, Florianópolis. Known as "the Island of Magic", Florianópolis is the favorite destination for tourism in the Southern part of Brazil. The city is known by its 42 beautiful beaches, special resorts, historical buildings, environmental protected areas, and by an economy strongly based on information technology.

Authors are invited to submit manuscripts on all aspects of computer architecture and high performance computing. Authors of selected papers will be invited to submit extended versions of their papers for publication on the Journal of Parallel and Distributed Computing. Topics of interest include (but are not limited to):

- Application-specific systems
- Benchmarking, performance measurements, and analysis
- Cloud, Grid, cluster, and peer-to-peer systems
- Embedded and pervasive systems
- GPUs, FPGAs and accelerator architectures
- Languages, compilers, and tools for parallel and distributed programming
- Modeling and simulation methodology
- Operating systems and virtualization
- Parallel and distributed systems, algorithms, and applications
- Power and energy-efficient systems
- Processor, cache, memory, storage, and network architecture
- Real-world applications and case studies
- Reconfigurable, resilient and fault-tolerant systems

Submissions must be in English, 8 pages maximum, following the IEEE conference formatting guidelines. To be published in the SBAC-PAD 2015 Conference Proceedings and to be eligible for publication at the IEEE Xplore, one of the authors must register at the full rate.
